

elfa® Easy Glider

A great way to de-clutter under the sink or inside any cupboard.

- The Easy Glider is a gliding drawer ideal for use inside cabinets.
- The drawer is available in two widths, 350mm and 450mm.
- It is very easy to install, just determine where you want to place the Easy Glider and secure the frame to the cabinet with four screws.

Step 1

Place the frame in the cabinet, make sure it is positioned so the frame pulls out towards you.

Step 2

Mark the holes on the bottom frame with a pencil. Remove the frame and drill the marked holes with a 3mm drill bit. Drill just enough to break the surface.

Step 3

Place the frame back in position and secure it with the screws provided in the pack.

Step 4

Make sure the drawer is centred to the frame. Snap on the clips provided to secure the drawer to the frame. (Diagram A)

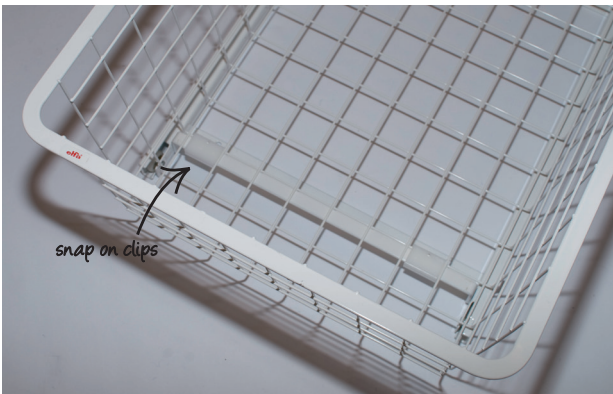

Diagram A

TIP

- Test that doors close with the basket in place.
- Make sure you have positioned the Easy Glider correctly before any drilling.
